

Production Bases

Production Base	Established	Product Types	Application
Wenzhou Base	1991	Small Ball Bearings	Household Appliances, Automotive Electric Motors
Hangzhou Base	1958	Small Bearings, Roller Bearings	Steel-Mill Machinery, Petroleum Machinery, Mining and Construction Equipments, Electric Motors, Wind Energy Equipments
Nanchong Base	1958	Ball and Tapered Roller Bearings	Automotive, Motorcycles
Wuhu Base	1968	Ball Bearings	Transmissions, Reduction Gear Boxes, Food Processing Machinery
Shanghai Base	1999	Taper and Cylindrical Bearings, Water Pump and Wheel Hub Bearings, MCB	Automotive, Textile Machinery, Machine Tools
Wuxi Base	2000	Miniature Ball Bearings	Office Equipments, Small Electric Motors, Precision Gauges and Instruments
Huangshi Base	1969	Spherical Roller Bearings, Large Bearings	Industrial Transmissions, Paper Mill and Printing Machinery
Philippines Base	2021	Deep Groove Ball Bearings, Tapered Roller Bearings, AAR.	Automotive, Home Appliance, Electric Motor and Agricultural and Forestry Machinery

Global Presence

Germany	1	1	1
China	1	1	17
Japan	1	1	1
America	1	2	1

C&U COMPANY LIMITED

About C&U

C&U stands as a professional bearing manufacturer and top 10 worldwide bearing manufacturer as well. It has 9 bearing production bases at home and abroad such as Wenzhou, Hangzhou, Wuxi, Shanghai, Nanchong, Wuhu, Huangshi, Philippine, etc. And it can produce more than 30,000 types of bearings, ranging from ID 1mm to OD 6000mm, with an annual capacity of over 1.8 billion pieces.

Application

C&U bearings are widely used in automotive, home appliance, motor, motorcycle, engineering machinery, electric tool, agricultural machinery, textile machinery, industrial robot, wind power, medical equipment and other industries, providing reliable products and solutions for customers in more than 40 sectors.

Service System

C&U has set over 30 sales branches in Hongkong, Taiwan and major cities which have well performance in bearings sale. What's more, it also owned overseas companies in the United States, Germany, Japan and other places, and has an international direct marketing network, providing more convenient services for customers.

Brands

- 9 Bearing production bases
- Complete industry chain of bearing manufacturing
- Bearing business revenue of 9.1 billion yuan
- Bearing capacity of 1.8 billion pieces

AUTOMOTIVE APPLICATIONS

High speed deep groove ball bearing for traction motor

Bearing for reducer gearbox in electric vehicles

Wheel hub bearings for electric vehicles

Wheel hub bearings for electric buses

Air compressor bearings for electric vehicles

Rocker arm needle bearings

Water pump bearings

Tensioner bearings

Taper roller bearings

Thin-walled bearings

Needle roller bearings

Eccentric needle roller bearings

AGRICULTURE, MINING CONSTRUCTION EQUIPMENT

Bearings without outer ring

Tapered roller bearings

Insert bearing with housing

Spherical roller bearings

Double-row cylindrical roller bearings

Cylindrical roller bearings

CONSUMER PRODUCT APPLICATIONS

One-way bearings

Ball bearings

Needle roller bearings

WIND POWER APPLICATIONS

Pitch bearings

Yaw bearings

Drive bearings

Generator bearings

Gear box bearings

Spindle bearings

INDUSTRIAL APPLICATIONS

Deep groove ball bearings

Tapered roller bearings

Spherical roller bearings

Cylindrical roller bearings

RAILWAY APPLICATIONS

Axlebox bearings

Traction motor bearings

Gearbox bearings

Sliding door bearings

Bogie bearings
