## High-speed FSVV / FDVV FSWV / FDWV V-Type Ball screw

In order to meet the market demand for highspeed and high-precision performance in the machinery industry, it is necessary to increase the motor speed and axial feed speed. Therefore, PMI developed a high-speed V-type ball screw to meet this stringent demand.

## • Feature

- The Dm.n value has been highly improved.
- Iower vibration and noise.
- The size of the nut is reduced by 10 ~ 20 %.
- Improved the smoothness and stability.

## Vibration comparison

## Spectrum comparison
