Distributor :

Campro Tooling Management System

Campro IIoT 2.0

Tool Wear Monitoring

Campro Tooling RFID/Barcode System

(with Campro IIoT 2.0)

v3.7

Precise Tooling / Materials Inventory Control | Re-order Prompt Automatically

24 Hours Supply Service | Tooling Consumption Report

Easy step of replenishment

Interface optimization /
Easy steps of replenishment

24-hour service

Our system can provide 24 hours supply service.

Active remind prompt

Connect with Database Management System / low safety stock / re-order prompt

Tool recycling

Use the Database Management system to record the tooling for recycling

Analysis

The prognosis system can collect the big data and performs the analysis instantly

Accurate Inventory

The system can accurately control inventory status and shows amount in real-time

Interlayer specification

TOOLING MANAGEMENT SYSTEM INTERLAYER

Max. Size To Keep Parts	3-lane Interlayer	5-lane Interlayer
W	26-218 mm	26-130 mm
H	5-200 mm	5-200 mm
D	10-300 mm	10-300 mm

* Block (in orange colour) = pusher block

Spiral type Interlayer

unit: mm

Standard Specification

The Expansion Cabinet is without *, which are included in the Main Cabinet

Specification	T1000	T2000	T3000
Size (width x height x depth)	600 x 1198 x 1070 mm	600 x 2057 x 1060 mm	600 x 2057 x 1060 mm
Dynamic Load (kg)	1023kg	1022.73kg	1022.73kg
Net Weight Without Load (kg)	200kg	450kg	550kg
Single-phase Power Supply (volt)	110 - 220V	110 - 220V	110 - 220V
Maximum Tool Storage (piece)	1000	1000 - 2000	1500 - 3000
Maximum Loading Per Lane (kg)	3.5kg	3.5kg	3.5kg
EXCEL File Output	● *	● *	● *
ID Login	● *	● *	● *
Industrial PC	● *	● *	● *

Used Tools Recycling, Factory-mounted (* Option : either 2 or 3 compartments)	●	●	●
Expansion Cabinet	●	●	●
3-lane Layer Upgrade To 5-lane Layer	●	●	/
Touch Screen Size	22"/24"	24"	24"
Full Security (anti-theft)	●	●	●
Fingerprint Recognition (login)	●	●	●
Spiral type Interlayer	●	●	●

Optional system

Multi-machine Inventory In tegration Management System

When multiple Tooling Management System are setup at different locations in the factory, the user can identify the stock condition of a particular tooling is available at which cabinet by virtue of this option. The user can select the nearest cabinet to him/her for usage.

Production Line : Tooling Pre-Withdrawal System

The user can perform pre-selection of tooling beside the CNC machine in the production line. The Tooling Management System will dispense the selected tooling automatically after the user presented at the cabinet.

Cabinet - for Tool Holders / Arbors (H-Series)

-  **Slide rails design**
No jerking when sliding out
-  **1-to-1 Management**
Option to lock each arbor
Reduces user's mistake in using the wrong arbor
-  **Can keep arbors of different tooling system**
HSK、BT、CAPTO、Live Tool Holder
-  **Can integrate with RFID Barcode system**

Cabinet - Compartment Type (G Series)

Each compartment can be individually locked & released.

Standard Specification

Specification	H
Size(width x height x depth)	600 x 2057 x 1060 mm
Dynamic load (kg)	1022.73kg
Net Weight Without Load (kg)	550kg
Single-phase Power Supply (volt)	110 - 220V
Maximum Allowable Expansion (number of expansion cabinet)	100
Display Screen (type&size)	Touch Screen 22'' *

Maximum types per layer (B)	52~104	52~104
Storage capacity of a cabinet (A)x(B)	520~1040	520~1040
To access during blackout	●	●
Storage Layers	-	●

The Expansion Cabinet is without *, which are included in the Main Cabinet

Cabinet - Drawer Type (D Series)

Each drawer can be individually locked & released.

No partition/compartiment at each drawer, thus material control is transparent.

Standard Specification

The Expansion Cabinet is without *, which are included in the Main Cabinet

Specification	D
Cabinet size (H x W x D)	1198x600x1070 mm
Number of Medium size drawer	6
Medium size drawer (H x W x D)	70x390x760 mm
Number of Large size drawer	2
Large size drawer (H x W x D)	140x390x760 mm
Maximum capacity per drawer	200kg
Dynamic load (kg)	1023kg
Net Weight Without Load (kg)	250kg
Single-phase Power Supply (volt)	110 - 220V
Maximum Allowable Expansion (number of expansion cabinet)	100
Display Screen (type&size)	Normal Screen 22" *
EXCEL File Output	● *
ID Login	● *
Industrial PC	● *
Campro IIoT Integration	● *
Barcode Management + Barcode Scanner	● *
To access during blackout	●

* The height of each layer can be customized

* First drawer high is 65mm

Recycling Cabinet (R Series)

Standard Specification

Specification	R
Cabinet size (H x W x D)	1198x600x1070 mm
Maximum types per cabinet	37 types

▲ Illustration of a Recycling Cabinet

*recommended to use with the Main cabinet
