### A good solution for clamping on both turning centres and 5-axis milling machines.

- For quick & easy work piece clamping on turning centres or for 5-axis machining on machine centres. Round-shaped style occupies less space and reduces interference.
- Available are different styles of vise jaws for different machining needs. The TMV vises come with different jaw width of 100mm, 130mm, 160mm and 200mm.
