CE

Feature

Unique oil-collected pressure stabilized fence design, increase the oil-water separation performance dramatically.

No consumable components.
Electricity free.

Small volume. Easy to operate.

Portable with wheels. Not necessary to be equipped with each machine tool, and able to save the equipment cost.

Decrease the odor and the germ growth; extend the lubrication life cycle.

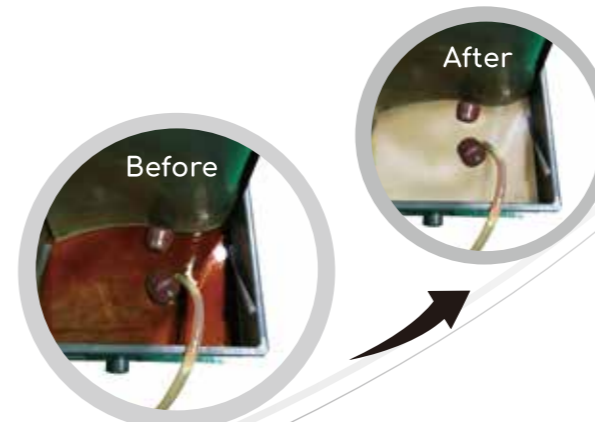

Due to the oil-water purified separation, the smoke caused during the cutting procedure reduced. It is helpful for human health and the environment.

Advantage

Assembled only by the best components.

Comprehensive after-sales service.

High quality.

Model NO	WSO-PE15A
Dimension	263x700x450 mm
Net Weight	37 kgs
Max Flow	48 liter/min 2880 liter /hr
General Incoming Air Pressure	1.5-5 Bar (kgf/cm ²) 21.75-72.5 Psi
Max Incoming Air Pressure	8.3 Bar(kgf/cm ²) 120 Psi
Max Coolant Process Volume	33 liter
Filter Tank Capacity	1.88 liter
