

SL series

AUTOMATIC WORKPIECE-
FEEDING SYSTEM

MASS- PRODUCTION Type

量產機型，自動送料系統

特性 Features :

- 本機台對單一尺寸圓棒之加工工作可提供大量自動化生產，提升工作效率。
- 搭載自動送料裝置，生產人員只需補充加工物，其餘機台自動加工。
- 輸送帶固定塊採用高品質塑膠材質可避免油液侵蝕並耐碰撞。
- The machine offers mass production in drilling single size of round bar. Job-doing efficiently.
- With auto-loading and unloading system, operator just needs to put workpieces on the conveyer. Then all work will be done automatically.
- Block of conveyer is made by high-quality plastic material can prevent the damage from oil and crash.

自動送料裝置
Auto loading & Unloading system

型號 Model	SLA series	
控制器 Controller	CNC / NC	
主軸數 Spindle number	4	
鑽孔範圍 Drilling diameter	ø3-ø15mm	
鑽孔深度 Drilling depth (Z)	100-1,000mm	
進給速 Drilling feed	10-250mm/min	
主軸轉速 Spindle rpm	0~8,000	
切削油壓 Pressure	0~100kg/cm ²	
出油量 Outflow	30~100L/min	
油箱 Oil tank	1,600L	
固定裝置 Fixture device	油壓固定 / Hydraulic clamping	
其他 Other design	自動送料系統 Automatic loading&unloading	

SLA-1000D

SLA-200D
