

HIGH-SPEED

**Reduce your machining times with
high-speed live tools for Swiss CNC Lathes**

MAXIMUM SPEED
24000
RPM

- **Micro diameter machining (under $\varnothing 1.0\text{mm}$)**
- **Precision bearing from Germany**
- **Realize high-speed machining**

No additional controller or
extension cable needed.

- Workpiece material: SNCM220
- Milling cutter : 1 mm
- Drilling bit : 0.5mm
- RPM of hexagon & eccentric hole : 5000 X 4
- Depth of hole : 2.0 mm (no center)

Can be use on

STAR SR20R
