**Subject:** [CTI - for input; DL 31 July] Singapore: Suggested Framework for Phase Three of Supply-Chain Connectivity Framework Action Plan (SCFAP) 2022-2026

*On behalf of Singapore*

Dear colleagues,

1 Thank you for your comments to the draft on *Suggested Framework for Phase Three of Supply-Chain Connectivity Framework Action Plan (SCFAP III) 2022-2026*. We have incorporated your comments when possible. The revised draft is attached below. Should members have further comments, kindly provide them to the **cc-list by 31 July 2022**.

2 To complement the ongoing work of SCFAP III, Singapore has prepared a survey to solicit views from companies that participate in supply chains. We hope that through this exercise, we can corroborate the chokepoints identified, as well as to incorporate additional areas into the SCFAP III framework. A copy of the survey is attached and the survey can also be accessed through this link <https://s.surveyplanet.com/x4rxhbnf>. We would appreciate your assistance to distribute the survey form and the link to the companies operating in your economies. The survey closing date is **31 July 2022**. Following which, Singapore will share the key findings from the survey.

3 Singapore is targeting to get endorsement from APEC economies on the SCFAP III framework at the CTI3 meeting, in order for the framework to be launched at AMM/AELM.

Thank you  
Singapore APEC team
